

PLAY MUSIC. TAKE CALLS. WIRELESSLY.

The Jabra Tag is the iconic *Bluetooth*® stereo headset with FM radio that allows you to control your music and phone calls anywhere you want.

Built in FM radio and Precision sound

Jabra Tag gives you high quality stereo sound when you're on the move with noise isolating earbuds and built in FM radio. Now you can listen to your favorite tunes from your phone or your favorite radio station while you're on the go. Even when you aren't connected to a device, Jabra Tag can still provide the entertainment – it's quick and easy to tune in to the stations you want.

Swap between music and conversation

With Jabra Tag, you can keep your phone safe in your pocket while you play music, change tracks, crank up the volume and take or make calls – all wirelessly. An automatic switch makes it easy to control your music and when a call comes in, the device alerts you. With one tap you can take the call and when it ends you can go back to enjoying your tracks. It even comes with up to 7 hours of music time and 8 hours of talk time, giving you all the sound you need when you're on the move.

Wear it your way

The way you wear your Jabra Tag is up to you – you can hang it around your neck like a fashionable tag or clip it on. Either way, it's unique design means you're never out of touch – with your music or your friends

COLOR VARIANTS

REASONS TO CHOOSE THE JABRA TAG

Built-in FM Radio – simply tune in

Precision sound with noise isolating earbuds

Tag pendant style or clip-on

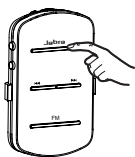

QUICK START GUIDE - GET STARTED UNDER 5 MINUTES

1 PAIRING

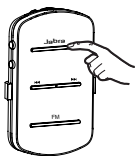

FIRST TIME PAIRING

1. Turn the Jabra Tag on (press the **multi-function button** for 4 secs).
